PROFILE

- Data Analyst with expertise in **SQL, Power BI, Excel, Python**, skilled in **Data Cleaning, Data Modeling, and Dashboarding**.
- Proven ability of **DAX-driven KPIs**, **KPI tracking**, and **Business Intelligence (BI)** solutions and to design interactive dashboards with **virtual Internship engagements at Deloitte and Tata Group**.
- Developed **10+ Power BI dashboards projects** for over **50k+ records** enhancing **60%** of real-world **Data analysis**.
- Delivered **25+ data storytelling reports** and **15+ high-quality blogs** for **4 freelance stakeholders**.

EDUCATION

- **ASM group of institutes, Pune**
Bachelor of Business administration in Computer Applications
CGPA - 9.10 | 2022-2025

EXPERIENCE

- **Deloitte Australia – Virtual Internship | Nov 2025**
Prepared weekly and monthly **MIS reports for 200+** simulated clients using Excel & Tableau.
Built dashboards to **track productivity, utilization, SLA, and performance KPIs**, improving **reporting accuracy by 25%**
- **Tata – Job Simulation Program | Nov 2025**
Performed data analysis and preprocessing on **large multi-country datasets covering 158 countries**.
Performed **EDA, data profiling, and feature analysis** aligned with analytics and BI use cases.

SKILLS

- **Programming & Querying:** SQL (Joins, Subqueries, Aggregations), DAX, Python, Gen AI
- **BI & Visualization:** Power BI (Reports, Dashboards, Power Query/M, Power BI Service), Tableau, Advanced Excel
- **Data & Cloud Technologies:** Data Modeling, KPI Development, ETL & Data Warehousing, EDA, Statistics, MySQL, PostgreSQL, SQL Server, Snowflake, Azure Fundamentals, Linux
- **Professional & Business Skills:** Data Analysis, Data Cleaning, Reporting, Business Intelligence, Client Communication, Requirement Analysis, Documentation, Quality Assurance.

CERTIFICATION

- Microsoft - Business Analytics with EXCEL (Training Program)
- Hacker Rank -Advance SQL (5★)
- Azure fundamentals – Simplilearn
- Simplilearn -SQL for Data analysis

PROJECT WORK

- [Cloud Data Analytics Project – AWS & Power BI](#)
Automated employee data ingestion using **S3 + AWS Lambda** and designed scalable **MySQL RDS** database for analytics.
Created **real-time Power BI dashboards** with live cloud data, built end-to-end solution using **AWS Free Tier**.
- [Credit Segmentation Analysis | Data Analytics and Power BI | Nov 2025](#)
Built a Power BI dashboard using DAX and data modeling techniques to assess **credit risk for 5,000+ customers**.
Designed **10+ KPIs** to support management and risk-based decision-making.
- [Lenskart Data Analysis | Power BI Dashboard | Nov 2025](#)
Created Power BI dashboards analyzing **5,000+ customer transactions**
Used **DAX measures, OLAP and Multi-source Data Analysis** to do **Spend Analytics** based on top cities, peak demand, and satisfaction
Improved insight analytics accuracy by **~80%**
- [India Population Dashboard | Power Bi & SQL| Dec 2025](#)
Integrated census data across **28 states & 8 UTs**
Designed interactive BI dashboards reducing manual analysis by **70%**.
